

New Roses for Spring 2010

Knock Out Rose Series

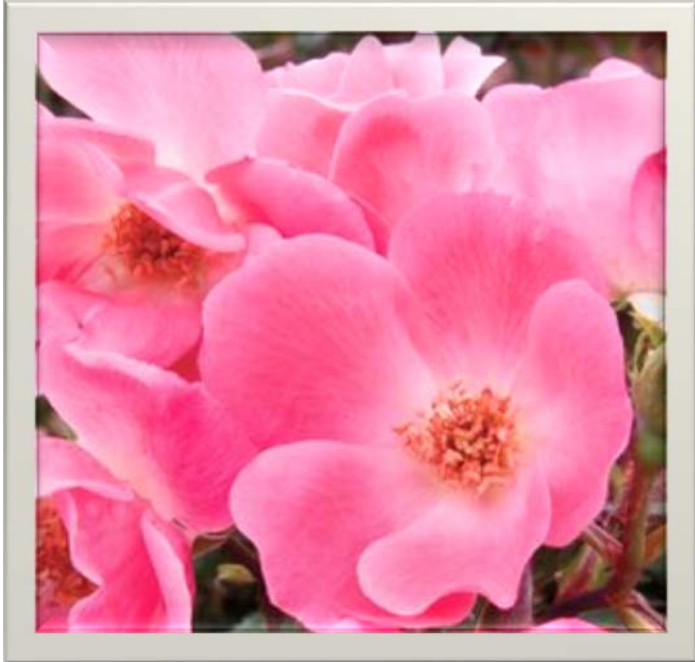

We are excited to bring to you a new series of tougher, hardier and more disease resistant roses for your landscape garden designs!

Check out the "Knock Out" Family of Roses:

These roses are easy to grow and do not require a lot of special care. They are the most disease resistant roses on the market. They have stunning flower power with a generous bloom cycle (about every 5-6 weeks) that will continue until the first hard frost. All of the Knock Out Roses are self-cleaning so there is no need for continuous deadheading. If left un-pruned these roses can grow easily to 3-4' wide by 3-4' tall! More periodic trims will keep them at a smaller maintained size! A good trim (cut 12"-18" above ground) in the spring is highly recommended for a great performance for the season!

These roses are great for any sort of landscape: they can be placed alone or amongst other plants such as perennials and annuals even other shrubs to help show off the beauty in your garden. They can even be used to create a beautiful hedge that is low maintenance! Some of the "Knock Out" varieties we will be carrying this spring are:

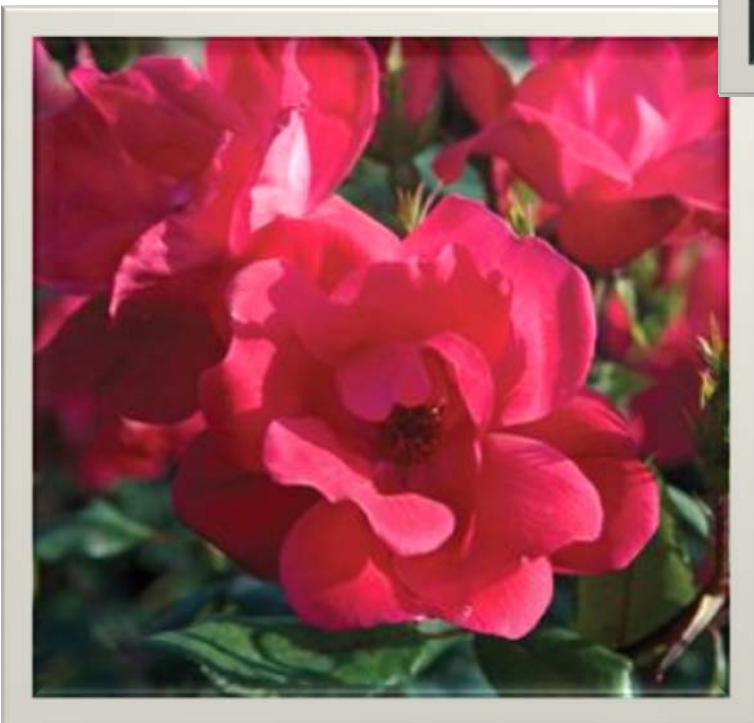

Pink Knock Out Rose

Double Knock Out Rose

Knock Out Rose

We are also carrying another exciting new rose in our Garden Centre this spring which is the Navy Lady Rose: The AC™ Navy Lady rose has been named as a dedication to the thousands of Canadian women who served in the Women's Royal Canadian Naval Service (WRCNS), known as Wrens, and the women who continue to serve today as members of the Canadian Navy!

The shape and color of the flowers are a beautiful, dark red velvet, with a very light fragrance. Between June and the autumn frosts it has continuous blooms.

Height & Habit-Average, Vigor.

Fragrance- Light

*Honour the past and promote the Wrens by
Planting a Navy Lady Rose in your garden today!*

“Commemorate, Celebrate, Commit”

Another new variety for us this spring is the Prairie Sunrise Rose, we look forward to seeing this beauty in full bloom as well! A large apricot bloom with a very strong fragrance! Another great rose that has a strong resistance to Black Spot and Powdery Mildew, grows to about 3-4' wide x 3'4 tall. Hardy for our prairie location!
